SEXUAL HARASSMENT

The Board of Education recognizes that harassment of students and staff on the basis of sex, gender and/or sexual orientation is abusive and illegal behavior that harms victims and negatively impacts the school culture by creating an environment of fear, distrust, intimidation and intolerance. The Board further recognizes that preventing and remedying such harassment in schools is essential to ensure a healthy, nondiscriminatory environment in which students can learn and employees can work productively.

The Board is committed to providing an educational and working environment that promotes respect, dignity and equality and that is free from all forms of sexual harassment. To this end, the Board condemns and strictly prohibits all forms of sexual harassment on school grounds, school buses and at all school-sponsored activities, programs and events including those that take place at locations outside the district.

Because sexual harassment can occur staff to student, staff to staff, student to student, student to staff, male to female, female to male, male to male or female to female, it shall be a violation of this policy for any student, employee or third party (school visitor, vendor, etc.) to sexually harass any student or employee.

In order for the Board to effectively enforce this policy and to take prompt corrective measures, it is essential that all victims of sexual harassment and persons with knowledge of sexual harassment report the harassment immediately. The district will promptly investigate all complaints of sexual harassment, either formal or informal, verbal or written. To the extent possible, all complaints will be treated in a confidential manner. Limited disclosure may be necessary to complete a thorough investigation.

If, after appropriate investigation, the district finds that a student, an employee or a third party has violated this policy, prompt corrective action will be taken in accordance with the applicable collective bargaining agreement, district policy and state law.

All complainants and those who participate in the investigation of a complaint of sexual harassment have the right to be free from retaliation of any kind.

The Superintendent of Schools is directed to develop and implement regulations for reporting, investigating and remedying allegations of sexual harassment. These regulations are to be attached to this policy. In addition, annual training programs shall be established for students and employees to raise awareness of the issues surrounding sexual harassment and to implement preventative measures to help reduce incidents of sexual harassment.

This policy shall be posted in a prominent place in each district facility and shall also be published in student registration materials, student, parent and employee handbooks, and other appropriate school publications.

HIV/AIDS POLICY

The Board of Education recognizes the public concern over the health issues surrounding Human Immunodeficiency Virus (HIV) and Acquired Immune Deficiency Syndrome (AIDS). The Board recognizes, based upon the current state of medical knowledge, that the virus associated with AIDS is not easily transmitted and there is no evidence that AIDS or the HIV virus can be transmitted by casual social contact in the open school setting.

The Board further recognizes the privacy rights of students diagnosed with HIV infection or AIDS and their right to a free appropriate public education; the rights of HIV infected employees to privacy and reasonable accommodations; the rights of all non-infected individuals to a safe environment free of any significant risks to their health; and the rights of all students to instruction regarding the nature, transmission, prevention, and treatment of HIV infection, pursuant to the Commissioner's Regulation, Part 135.3.

No individual shall be denied access to any program or activity sponsored by or conducted on the grounds of the district, solely on the basis of his/her status as an HIV-infected individual.

Students

It is the policy of the Board that:

1. A student's education shall not be interrupted or curtailed solely on the basis of his/her HIV status. HIV-infected students shall be afforded the same rights, privileges, and services available to every other student.
2. No student shall be referred to the Committee on Special Education solely on the basis of his/her HIV status. A student who is infected with HIV shall be referred to the Committee on Special Education (CSE) only when the student's disability interferes with his/her ability to benefit from instruction. Such referral shall be made in accordance with Part 200 of Commissioner's Regulations.
3. If a student who is HIV-infected requires special accommodations to enable him/her to continue to attend school, the student shall be referred to the appropriate multi-disciplinary team as required by §504 of the Rehabilitation Act.
4. No disclosure of HIV-related information involving a student shall be made without first obtaining the informed consent of the parent, guardian or student on the Department of Health (DOH) approved form.

Employees

It is the policy of the Board that:

1. 2. No disciplinary action or other adverse action shall be taken against any employee solely on the basis of his/her status as an HIV infected or a person with AIDS. Such action will only be taken where, even with the provision of reasonable accommodations, the individual is unable to perform his/her duties.
3. All employees shall have access to the district's exposure control plan as required by the federal Office of Safety and Health Association (OSHA).
4. In accordance with OSHA regulations, training in universal precautions and infection control shall be offered to all employees and shall be provided to every employee with potential occupational exposure.

Confidentiality

Any information obtained regarding the HIV status of an individual connected to the school shall not be released to third parties, except to those persons who are:

1. named on an Authorization for Release of Confidential HIV Related Information form;
2. named in a special HIV court order; or
3. as indicated in Public Health Law §2782, when necessary to provide health care to the individual (i.e., to the school physician and the school nurse).

Any employee who breaches the confidentiality of a person who is HIV infected shall be subject to disciplinary action in accordance with applicable law and/or collective bargaining agreement.

To protect the confidentiality of an HIV infected individual, any documents identifying the HIV status of such individuals shall be maintained by the school nurse (or another authorized individual) in a secure file, separate from the individual's regular file. Access to such file shall be granted only to those persons named on the Department of Health approved Authorization for Release of Confidential HIV Related Information form, or through a special HIV court order. When information is disclosed, a statement prohibiting further redisclosure, except when in compliance with the law, must accompany the disclosure.

HIV/AIDS Testing

No school official shall require a student or employee to undergo an HIV antibody test or other HIV-related test. In accordance with OSHA regulations in the event of an incident involving the exposure one individual to a potentially infectious body fluids of another individual, particularly blood or any other fluid which contains visible blood, an HIV test may be requested but NOT required. The request and refusal must be documented.

However, school officials shall not be precluded from requiring a student or employee to undergo a physical examination pursuant to Education Law §§903 and 913, when other illness is suspected (e.g., tuberculosis), as long as no HIV antibody test or other HIV-related test is administered without the individual's informed consent as required by Public Health Law §27-F.

To implement this policy, the Superintendent of Schools is directed to arrange for staff training, to distribute copies of this policy to all employees of the district, and to include it in the district's student handbook, and to establish an advisory council to make recommendations on the development, implementation, and evaluation of HIV/AIDS instruction as a part of comprehensive health education.

Accordingly, the members of the Board shall conduct an evaluation annually to determine the degree to which they are meeting their responsibilities as Board members and the needs of their educational community.

This self-evaluation shall be positive, frank and honest, and shall focus on evaluating the Board as a whole, not as individuals. The results of the evaluation shall be used to establish priorities for action and specific goals and objectives to strengthen the operation of the Board.

The Board shall use a self-evaluation instrument, which will be developed at each of the July Reorganizational Meetings. The instrument will be approved by the Board before the end of October. The self-evaluation will occur in February and in June or at the Board's discretion.

EVALUATION OF SUPERINTENDENT

The Board of Education recognizes that student achievement, district progress and community satisfaction with the schools are all in large part affected by the superintendent's performance. The Board also recognizes the superintendent cannot function effectively without periodic feedback on performance, and is committed to ensuring that the superintendent is evaluated annually as required by Commissioner's regulations.

The purposes of the evaluation shall be to:

1. Gauge the district's progress toward the goals the Board has charged the superintendent to accomplish.
2. Provide a basis for assessing the strengths and weaknesses of the Board and the superintendent and to aid in the professional development of both parties.
3. Strengthen the working relationship between the Board and the superintendent.
4. Provide a basis for commending, rewarding and reinforcing good work.

The evaluation shall focus on the goals the Board sets for the superintendent each year as well as the duties and competencies specified in the superintendent's job description.
