**Managing Life with a Challenging Child  
at PV Library 10/16 7PM - FREE**

**Practical Strategies For Managing Life  
with a Challenging Child**

How to address intensity, inflexibility, sensitivity, perfectionism & other challenging traits

For parents of children ages 4 to 14.

Is your child erratic, extreme, intense, inflexible, hard-to-handle, or just hard-to-figure-out?

Do you often feel frustrated, isolated, exhausted, overwhelmed, discouraged, or just in need of some practical help?

Join us for a discussion led by Barbara Probst, LCSW, MSW.

Her practical approach focuses on ways to understand - and help - challenging children

Ms. Probst is a clinical social worker, Fordham University professor, and author. She has given dozens of workshops and presentations across the country. Her book, *When the Labels Don't Fit*, will be published in 2008.
