Dear Putnam Valley Elementary School Parent(s) and/or Guardian(s):

My name is Kimberly Strang Realbuto and I am a Prevention Educator from Putnam Family and Community Services, INC. I will be providing Putnam Valley Elementary School students with Prevention Education program entitled "Wise Choices." Many of the lessons are based from the "Too Good" curriculums from the Mendez Foundation.

The students will receive the lessons in their classrooms which consist of interactive activities, discussions, and skill building techniques about decision making, showing kindness and respect, handling and expressing emotions appropriately, and making healthy choices. All the activities, topics, and games are designed based on age and grade level.

This program recognizes that schools, families, and communities are all influential learning environments for children; and together, we can help our children learn how to make healthy and positive choices. I am truly excited about this program and the opportunity to work with your student(s). If you have any questions or would like additional information, please do not hesitate to contact me via e-mail. Thank you!

Sincerely,

Kimberly Strang Realbuto
