*Putnam Valley Basketball Camp is for players of all abilities. The focus of our camp is skill development at all levels, such as effective dribbling, passing, shooting, pick and roll, post position, etc. We also stress concept development like attacking the zone / man-to-man, using a screen properly, help defense and more. Visiting coaches and players teach and demonstrate skills that have made them successful. Games and competitions are used to integrate new skills into each player's game.*
